## Of Summer.

☉ in ♋ ♌ ♍

**T**He Summer Quarter doth take his beginning when the Sunne doth enter into the first degree of *Cancer* which will be this yeere the 11 of Iune, and doth continue whilst the Sunne passeth through *Cancer*, *Leo*, *Virgo*, now are the dayes longest, and the daye hottest, therefore but for necessity, bid Physicke Adieu.

## Of Autumne.

☉ in ♎ ♏ ♐

**A**utumne or Harvest Quarter (commonly called the Fall of the Leafe, of some the Latter Spring) doth begin when the Sun doth enter into the first degree of *Libra*, making againe the day and the night of equall length: Which will be this yeere the 13. of September, and doth continue whilst the Sun doth passe through *Libra*, *Scorpio*, and *Sagittarius*. This quarter doth fitly resemble declining age and Phlegmatick complexion.

A briefe Chronologicall Description of  
 many things worthy of memory, that have  
 hapned since the Creation unto this present  
 yeere of our Lord 1648. with the yeere of  
 the World in which they hapned,  
 in the first Columnne, faithfully  
 collected from many  
 good Authors.
